

2017 Summer Program

Welcome Families to SHECC 2017 Summer Program. Our staff has many exciting and educational activities planned for the summer. SHECC Summer Program offers an enriching day of activities that stimulate the mind and encourage discovery. This summer we will be doing tremendous and exciting “*Summer STREAM Adventures.*” The children will have opportunities to continue to learn during the summer through exciting activities. They will learn about Science, Technology, Religion, Engineering, Arts and Math. This year’s program is going to be engaging and fun for the children. The field trips will be to the Pioneer Museum, Dinosaur World and Kennedy Space Center. Our weekly activities will include skating at Eddie’s Roller Rink and swimming at St. Leo Pool along with indoor and outdoor art, crafts, activities, games and sports.

Sunscreen policy is crucial to keep our children healthy and safe. **Face stick** and **spray** sunscreen will be allowed. If you want your child to wear lotion sunscreen then it will need to be applied by you before coming to SHECC and then reapplied by the child. **NO** staff will be permitted to do this for your child. Rash guard shirts will be allowed for swimming.

Sacred Heart ECC will **NOT** participate in the USDA Free Lunch Program for children during the summer. Please remember SHECC is a **PEANUT FREE CENTER**. Children will need to bring a lunch and a refillable thermos type water bottle with each child’s first and last name on it. Special Food Activities will take place during the summer, please watch for more information.

In order to be in compliance with the Diocese of St. Petersburg policies internet capable devices will **NOT** be permitted. This includes cell phones and internet capable hand held electronics.

We look forward to a fun and exciting summer with your children. Please return your summer registration packet to the office by **May 19, 2017**.

Thank you,

SHECC Staff
