

SHECC SCHOOL AGE

SUMMER S.T.R.E.A.M ADVENTURES

June

Welcome to Summer at SHECC- School Age! We are so excited for our Summer ahead! We are thrilled to be able to share new and fun learning experiences. The fun begins in June. We will be pioneering and engineering by building catapults and learning about the science and math behind it. We will be making Old Fashion Candy prior to our visit the Pioneer Museum on June 22.

We will be studying Dinosaurs and their habitat as we create a Dinosaur Garden and get dirty with a dig before our field trip to Dinosaur World on June 27.

Our Religion study this Summer will be Walking with Jesus. We will journey with Jesus from his birth to his death on the cross.

Building, cooking on **solar ovens** and creating **robots** are on the agenda as we prepare for our exciting trip to NASA.

July

Move up Day is July 3! Let's celebrate!

SHECC Closed July 4th

The NASA field trip will be Friday July 7. We will be looking for chaperones. Please let us know if you are interested in going. Students who are in **2nd through 5th** grade will be attending this event. NASA has science and technology activities planned. It will be an amazing adventure for the students.

The Arts are a big part of creativity and the student will be learning about the artistic works by Monet and Escher and recreating their masterpieces during July.

August

We will wrap up our spectacular Summer studying kinetic energy. The students will use their summer skills by engineering a water slide. The students will also learn about weight and measure tension. They will test their theory and blow up a Watermelon!

We will be planting a Fall Garden and continue taking care of the plants throughout the fall season.

Back to School August 14th

Reminders

Skating and field trips please wear blue shirts.

Swimming- Apply Sunscreen

Have an enjoyable Summer!

Ms. Janis, Ms. Debbie and Ms. Laura
