

APRIL

April is here, and spring has sprung! We hope you all had a blessed Easter and enjoyed your time with your tiny tots. They had loads of fun during their Easter egg hunt and Easter picnic. Thank you all for bringing Easter eggs and yummy snacks to share.

This month, our themes are going to be April showers and God's gifts of love. We will talk and learn about spring time and how April showers bring may flowers and how all these beautiful things are gifts from God to show his love for us.

For our science and sensory activities this month, we will be planting seeds and observing them daily to see how they change and grow. We will also be doing more spontaneous process art and sensory activities as the rainy days increase.

Be sure to check our bulletin board for pictures of us during these activities. Please also try to check your child's folder daily as well. All their beautiful artwork will be placed in their folders to go home as well as other important communication you may need from us.

Summer time is fast approaching, and we are starting to work on summer lesson plans and daily activity schedules. Please start thinking about if there will be any changes to the days your child attends and let us know as soon as you can. I would like to plan our fun activities for days when the most children will be here to enjoy them so having this information from you would help accomplish this.

Thank you all for being such wonderful parents and for allowing us the privilege to spend time with your child and the opportunity to encourage their growth and development.

Ms. Jenn
