

Our **Bible Treasure Hunt** begins on May 30 and will continue all Summer. **Jesus** is the greatest treasure that anyone can find. This Summer, campers will be searching for Jesus and many other treasures. They will find “**God**” who is more valuable than gold.

Campers will participate in **Academic Enrichment** throughout the Summer, so they don't experience “summer learning loss”. Studies have shown this is crucial for students to stay focused and engaged in academics over the summer break. Learning is fun and there are many ways to stay on task with exciting activities in Science, Math, Language, Art and Music. Please see the calendar for weekly activities that will enhance their learning.

Our treasure hunters will start creating their personal treasure boxes as well as solar ovens for weekly cooking experiences. They will have easy delicious recipes to share with you.

Summer is also a time to enjoy **Field Trips**. We will go skating each Tuesday. Please be sure to wear your Blue SHECC T-Shirt each week for this activity. If you need to purchase a new or replacement t-shirt, please see a staff member. Each Friday, campers will either go swimming or have fun onsite on our waterslide. Please make sure you bring a signed permission slips and sunscreen forms to allow SHECC staff to apply sunscreen on your child before they participate in outside water activities. June 1st is our first field trip of the summer, which is swimming.
