

HAPPY
January

Welcome to a New Year! We hope everyone had time to spend with their families. Now ... it's time for work and school.

The babies are settling right in to the routine again. The weather has been nice, so we enjoy our buggy rides and fresh air. We will continue to paint with our hands and feet this month. Hope you enjoyed all our art work last month.

We will start by making bells to ring in the New Year. We will still work on our gross and fine motor skills. We are crawling, sitting, standing, and pulling up. No walkers yet. We are still working on that. Some of us are starting to use a sippy cup, eating puffs and using teethingers. We need to work on finger foods, so when they move up, they will be ready. Picking up finger foods will be a great fine motor skill.

We enjoy our floor time where we can read books, play with puppets, stack cups and pound on all the musical toys. We get one on one at nap, so we can snuggle, have a battle and get rocked or our backs patted and listen to some quiet music playing.

Thanks for the wipe donations each month. If you have any questions, please feel free to ask. Happy New Year! We hope it brings you lots of good things.
